- Critical thinking
- Problem solving
- Team-oriented
- Proactive
- Adaptable
- Flexible

EXPERIENCE

TECHNICAL ANALYST

SELF-EMPLOYED | NOV. 2016 - PRESENT

- Converted and documented data from actionable insights by predicting and modeling future outcomes.
- Purchased and exchanged cryptocurrency after analyzing data from charts.
- Calculated risk assessments to risk-to-reward ratio.
- Determined support and resistance structures through a series of exponential moving averages (EMAs), Fibonacci, and trendline structures.
- Use standard deviations from market trends to determine parabolic movement.
- Mitigated losses below 1% and kept a 2:1 ratio upside to keep a consistent overall profit.

COURSE CURRICULUM INSTRUCTOR

THINKIFIC.COM, DISCORD & FACEBOOK | NOV. 2017 - JULY 2018

- Moderated and participated in online group discussions of 383 students to build relationships and brainstorm fundamental analysis.
- Prepared course design documents to create an eye-catching and easily accessible layout for 78 lesson plans.
- Designed and developed an innovative curriculum reviewing companies' fundamental analysis, initial coin offerings, and technical analysis for 383 students to achieve financial security.
- Maintained direct contact with students and Facebook group members to create a team atmosphere and provide supplemental instruction or resolve any issues, as needed.

CONTENT CREATOR

YOUTUBE, TWITTER & DISCORD | FEB. 2017 - CURRENT

- Provided regular financial content updates for an audience and spent 3 hours a video to plan, create, edit, upload, and manage.
- Maintained websites, all social media applications, and blogs to create brand awareness.
- Assessed video and post analytics to adjust and alter content based on current trends and algorithms.
